

How does a story change when skin colour changes?

What is Race?

...A MADE UP
IDEA!!

...that has REAL impact!

Race describes how humans are grouped and divided.

These categories have been taught to us throughout history and we still use them today.

Race is a social construct that humans believe and follow. There is no scientific proof behind the idea of race. We are all a part of the human race!

Social Construct - Unspoken rules that humans follow
